

Dart-AM Farms CSA (Community Supported Agriculture)

Crop Plans for 2012

CSA members can expect six months delivery to Fairbanks and North Pole, Alaska. This is weather dependent, but should be possible in most years. We are planning for a pick-your-own in Manley Hot Springs.

July 4th Celebration: July 4, 2012. Consider coming to Manley Hot Springs for tours of the farm. We are 165 miles from downtown Fairbanks.

Membership: To lock in a CSA share a person needs to pay **\$100.00** by February 1, 2012 annual membership to save a share. Only 60 shares will be offered to individuals in Fairbanks and North Pole communities. **Checks payable to Dart-AM,LLC.**

Payment Plan: We offer a payment plan of **4 easy payments of \$ 260.00 beginning March 1, 2012.**

Subsequent payments are due the first of the months of April, May, and June. This totals \$ 1140.00. If you fail to pay your monthly fee you will be dropped from the delivery schedule.

Pickup Stations (times will be announced):

Fairbanks- Under the Sears Sign in the Sears Parking Lot

North Pole- Little Richards Café corner of Peridot and Richardson Hwy.

Our crops are listed on the next page. From experience not all will work out because the weather is different every year, however because of the warm soils and geothermal water we at Dart-AM Farms have the best chance for success.

So what can you expect? Fresh Alaska Grown Produce!
